## **CPM Group Silver Yearbook 2018**

Release and briefing

**CPM Group will release its *Silver Yearbook 2018* with a live webcast on 24 April 2018.**

The silver market has been hit by a *steep fall in investor buying* of bullions and coins. *Solar power* panels meanwhile have used more silver than either the solar or silver industries expected. Meanwhile the industry continues to struggle to understand why the silver price has traded in a narrow, sideways range for the past three years.

CPM Group's **Silver Yearbook 2018** addresses what really is happening in the silver market *with the most comprehensive and credible statistics* and analysis on silver. The report provides a thorough review of silver market trends and fundamentals, with in-depth analyses and statistics on mine production, secondary silver recovery from scrap, fabrication demand, inventories, futures and options market information, investment demand, and prices.

**This year's briefing will include Jeffrey M. Christian and Yvonne Li of CPM from Shanghai, Rohit Savant of CPM from New York, and a presentation by the CME Group.** The Chinese language version will be released at the National Silver Festival in Huzhou 26 April.
