## NEWS RELEASE March 23, 2016

### Golden Arrow Congratulates Argentina on Visit by US President

**Vancouver, BC / Marketwired / March 23, 2016 / Golden Arrow Resources Corporation (TSX-V: GRG, FRA: GAC (WKN: A0B6XQ), “Golden Arrow”)** Golden Arrow and Grosso Group Management Ltd. (“Grosso Group”) congratulate the Government of Argentina on the visit of the President of the United States whose significant speech highlighted a common path of co-operation on several fronts, including national security and the development of Argentina’s vast natural resources.

The pledge of partnership on many fronts, particularly the development of natural resources is especially gratifying. Argentina is demonstrating that it can be a strong global partner on a range of matters.

Golden Arrow and Grosso Group have been active in Argentina over the last 23 years with a firm belief of being focused on one of the best investment and mining world destinations for discoveries.

Golden Arrow is currently focused on its Chinchillas Silver Project with a pre-feasibility level study underway and is in a partnership option with growth and production potential. Additional results from this ongoing program are expected to be published soon.

The Company, because of the recent fiscal developments in Argentina, continues to pursue advanced projects capable of generating a fourth major discovery with shareholder value growth potential.

#### **About Golden Arrow:**

Golden Arrow Resources is a Vancouver-based exploration company focused on creating value by making precious and base metal discoveries and advancing them into exceptional deposits. The Company is currently focused on its Chinchillas Silver Project located in the mining-friendly Province of Jujuy, Argentina. Exploration has progressed rapidly since the acquisition of the project in late 2011. The innovative transaction announced October 1<sup>st</sup> 2015, positions the Company to maximize shareholder value by fast-tracking Chinchillas to production and becoming a 25% owner of the world-class Pirquitas silver mine.

ON BEHALF OF THE BOARD

“Joseph Grosso”

---

Mr. Joseph Grosso  
Executive Chairman, President, CEO and Director

#### FORWARD-LOOKING STATEMENTS

This news release contains “forward-looking statements” within the meaning of Canadian securities legislation. Such forward-looking statements concern the Company’s anticipated results and developments in the Company’s operations in future periods, planned exploration and development of the Chinchillas project, plans related to its business and other matters that may occur in the future. Statements concerning mineral resource estimates and the interpretation of drill results may also constitute forward-looking statements to the extent that they involve estimates of the mineralization that will be encountered if the Chinchillas project is developed. These statements are based on a number of assumptions which may prove to be incorrect, including, but not limited to, assumptions about the following: assumptions made in the Chinchillas Mineral Resource Estimate, including geological interpretation, grade, recovery rates, silver, zinc and lead price assumptions and operating costs; the availability of financing for exploration and development activities, including Silver Standard Resources Inc. (“SSRI”) meeting certain milestones and exercising its election to proceed with the transactions contemplated under the Business Combination Agreement dated September 30, 2015 among the Company, SSRI and certain other parties; the Company’s ability to attract and retain skilled staff; the Chinchillas project development schedule; the exchange rates of the Canadian dollar and United States dollar to the Argentina peso; market competition; ongoing relations with impacted communities; and general business and economic conditions.

Forward-looking statements are subject to a variety of known and unknown risks, uncertainties and other factors which could cause actual events or results to differ from those expressed or implied by the forward-looking statements, including, without limitation: risks related to precious and base metal price fluctuations; risks related to the transactions contemplated by the Business Combination Agreement; risks related to fluctuations in the currency markets (particularly the Argentinean peso, Canadian dollar and United States dollar); risks related to the inherently dangerous activity of mining, including conditions or events beyond our control, and operating or technical difficulties in mineral exploration, development and mining activities; uncertainty in the Company’s ability to raise financing and fund the development of the Chinchillas project, including as recommended in the Chinchillas Mineral Resource Estimate; uncertainty as to actual capital costs, operating costs, production and economic returns, and uncertainty that development activities will result in a profitable mining operation at Chinchillas; risks related to mineral resource figures being estimates based on interpretations and assumptions which may result in less mineral production under actual conditions than is currently estimated and to diminishing quantities or grades of mineral resources as properties are mined; risks related to governmental regulations and obtaining necessary licenses and permits; risks related to the business being subject to environmental laws and regulations which may increase costs of doing business and restrict our operations; risks related to the Chinchillas project being subject to prior unregistered agreements, transfers, or claims and other defects in title; risks relating to inadequate insurance or inability to obtain insurance; risks related to potential litigation; risks related to the global economy; and risks related to the Chinchillas project being located in Argentina, including political, economic, social and regulatory instability. Should one or more of these risks and uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described in the forward-looking statements. The Company’s forward-looking statements are based on beliefs, expectations and opinions of management on the date the statements are made. For the reasons set forth above, investors should not place undue reliance on forward-looking statements.

The information provided in this news release addresses the drill results from the Chinchillas project and is not intended to be a comprehensive review of all matters and developments concerning the Company. It should be read in conjunction with all other disclosure documents of the Company. The information contained herein is not a substitute for detailed investigation or analysis. No securities commission or regulatory authority has reviewed the accuracy or adequacy of the information presented. The Company undertakes no obligation to publicly update or revise any forward-looking statements other than as required under applicable law.

We advise U.S. investors that the SEC’s mining guidelines strictly prohibit information of this type in documents filed with the SEC. U.S. investors are cautioned that mineral deposits on adjacent properties are not indicative of mineral deposits on our properties.
